DINETTE COACH

DINETTE COACH

In the late 1940s - early 1950s, Southern rebuilt several coaches into a combination dining & coach car referred to and lettered as Dinette-Coach. The first of these cars was lettered with roman style lettering with a “dash” between words. Subsequent cars were lettered with Block style lettering with no “dash” between words. See Block Lettering drawing. The lettering was specified as 5 inches tall and was painted imitation gold (yellow)

The lettering above is not to model railroad scale, but can be sized to any scale as long as height & width ratio is maintained. I have provided a scale drawing separately.
