SR DWG SL-1050 1917

Southern Railway Steam Locomotive Tenders, both Passenger & Freight, had the capacity in gallons listed on the rear of the tenders in the upper right corner. The word gallons was spelled out, not abbreviated. The "G" and "l" were 2.25 inches tall and the lower case letters were 1.5 inches tall. See SR Painting & Lettering Drawings SL-1050 and SL-6129 for placement and size of these letters. These graphics are not to model scale, but can be resized to any scale as long as dimensions are maintained. I will provide scale DECAL Artwork for N, HO, S & O
